

Monday 13th May - Joe Sharman (Monksilver Nursery, Cottenham)

Gardening with Grasses

Joe has been running Monksilver Nursery in Cambridgeshire for 28 years and aims to produce as wide a variety of rare plants as possible.

He is probably best known for selling THAT snowdrop on the Internet.

He will talk about how to tell the main groups of grasses apart and how and where to use them, followed by a question and answer session.

There will be plants for sale.
